NOTICE: Beginning Jan. 15, 1982, I'm increasing the subscription rate to \$5.00/10 issues. I will accept checks dated between Jan. 1, 1982 and the deadline for issue #167 at the old subscription rate of \$5.00/11 issues. I just have bought a new load of paper (prices are up). That, and the Postal "Service" increase cause the raise.

Letters

Thanks for making the year more enjoyable. Keep up the good work. You and your wife enjoy yourselves! Best, Fred Phrogus

((Thanks, and our best wishes go out to you, and to all the LIB subscribers. It's you, the subscribers who really make this 'zine an enjoyable thing. Many of you enjoy other 'zines, produced by other publishers. So if I weren't doing this, you'd always have others to turn to. On the other hand, YOU are the only subscribers the LIB has. Without you, the LIB would not be.))

Turkey: Russia, I'll die. Yes, I feel it in my bones. But, before I do, I'll take at least one of your home centers, pig! The others will be taken by England and Germany!!

Turkey-Italy: The Turkish people have decided to move from their sunny home centers to the cooler Russian ones. Maybe Italy will like to move to some old Russian colonies, and later to Turkish home canter! Beat the hell out of the Russians being there folks. No, I'm not crazy.

Turkey-England: Keep up the good work!

Turkey-Germany: Follow my example.

Turkey-Austria & France: Watch Italy!

England-France: Too bad you NMR'd. If you had moved A Gaa-s-by-A-Bur, A Gas would have made it to Paris. Aus-A-Mar would have made it to Gas, and thus not only would you keep Merseille, but Austria would be out of the game and A-Gas would have had to be disbanded. You blew a beautiful opportunity to remain a major power.

France-Germany: Go back to your homeland and we'll be friends again. Maybe even allies.

France-England: I've now kept my and of the bargain. If you keep yours, we'll start waging war in proper directions.

Marseille: Now, if I only guess his strategy right and not merely outguess my own demise. Oh, well what the hell am I doing in Marseille anyway?

AB43

For 1943 (the 5th year of the war!) we have a new player for Italy:

CHIP MERTON
1654 Oldridge Ave. North
Stillwater, MN 55082

Chip is a new player to AB rules. He is experienced in tactical armored play as well as in the strategic and diplomatic aspects of AB. He also plays "STREUSL", which is a game very similar to AB, except it's based upon Squad Leader for its tactical element.

We now need one new AB player for 1943. The UK position is open. It's in bad shape, and needs a good salvage effort. The Japanese player, Jim Frediani, expresses an interest in trying to salvage the UK position, so a new player might get the very excellent position of Japan to play. Please express your preference when you request assignment. First come, first served.

It's still 3 or 4 months until 1943 will begin (unless the scenarios end early). Chip and the player who takes the vacant position will have time to diplomatically acquaint themselves with the other players (players are playing Germany, USA, Japan, Russia, Poland, Spain, Italy, and Turkey in addition to UK). They will also have time to assimilate the AB rules. I'm sure the current players will be happy to answer questions and give tons of advice. I'll answer any question I can, too. Some of the players know the rules better than I do (to their chagrin!).

On the subject of rules, it appears the ARAB rules are unobjectionable to the players with the exception that one player does not want to use the Air Module, as he feels it will work to his disadvantage. The way aircraft have fallen this year, after ruling the field in earlier years, I don't think that aircraft will have much of a chance with all the AA going around. In any case, I very much want to use the ARAB rules. The main reason I want to use the ARAB rules is because I'm not at all clear (anymore?) what the old WFFAB rules are! They are printed piecemeal in several issues of the LIB. A large part of my effort in assembling the ARAB rules was to combine all the improvements we've made together in one place. The novel search and contact procedures have been FTF'd and have a good feel to them. And they work. It will be very difficult for me to provide the new players with a comprehensive understanding of the WFFAB rules since I'm so confused on them. So, I'm only sending to Chip the ARAB strategic rules so as not to confuse him as I am now confused about the old rules. Does anyone object to this? Can we do it anyway, even if you do have an objection? Let me know how you feel.

Moscow: Beware the sleeping Russian Bear. Should he wake, have a care.

I think A.B.C. just found the bear he was hunting. The bear also seems to have found Karl and Ivan. I wonder who will survive? The bear or Karl, Ivan, and A.B.C. Any takers on the betting? The eagle of Poland should be more careful about poking his back into bears' dens.

BFF HQ somewhere in France: While taking his 5th tea break in the last 13 turns, Neville was shocked at being rudely interrupted. "I say old chap, time to get back to the war already?" Oh well, he thought, only a turn or two more and he could sit down and rest again. Bloody beastly this war, hurry up and get shot, hurry up and get shot. Could be worse though, he could be in Norway. From what he'd heard, it could be another devastation in the making. At least by the time the BFF was ready to devade the high command would have gotten it down pat.

Haven't those B17 crews gotten their pants changed yet?

Tinkle, tinkle, little Grent. Why're you going where you can't? Blown to pieces in the sky. Crawling death traps, I wonder why? Your recruits aren't jumping ship, instead of taking all this "lip". Karl and Ivan I ain't. The Soviet attack on Manchuria was as yecch not a single Soviet attacker was ever spotted! Talk about a phoney war!

I just thought with all those people griping about heving to beat the bushes for targets I might proclaim for the "joy of shooting". Of course I've yet to kill the damned things, but at least I get to take 3-10 shot per turn. Law of averages tell me between GMA and DF I should kill something. CAS, too!

Baku (SPI, AH): General Ishmet was overheard to say "So old Bears can learn new tricks. Now if they could just do it to their enemies."

Ankara (AH, SPI): All of Turkey thanks the Russian nation for leaving out one to thraa tanks a turn to improve our ratings. After all, you could have been nasty and sent them all at once! That could have been a problem. Also thanks for putting your tanks in different places so all Turkish units got a chance to shoot. The Germans are envious! Keep up the good work!

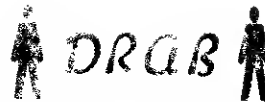

DRAB Press:

I like the way some minors just lay down their arms and surrender, "on cue" without an enemy near their CP or a shot fired in anger. I wonder what sort of "deal" was worked out that we'll never know about? Perhaps Jim should screen his selections for Minor Armies a bit closer?

Dagda: No potato soup for Eire this year. Have a good time sitting around, but you won't find victory that way.

The Aesir today announced the imminent pacification of the people of the wolf and the sons of Loki. With these steps the great winter should be laid at bay for a longer time. All peaceful agrarian peoples should be overjoyed at the news of continued short winters.

London: A hard attempt at parity between the Army and Navy has been achieved, and now seems time to put the German in his place! Our only regret is that ANK still belongs to the Turk, just when there appears to be a power vacuum (Alun, standby, phantom -- is anybody out there--Turkey could still come back).

Towards the Limit of the Soul: I used to be so depressed at Thanksgiving because I had so little to live for ... One day this little voice spoke to me in the midst of my gloom and despair. "Figowitz", this little voice said, "Cheer up and be thankful for what you have in life." So, I cast aside my pessimism and decided to join my fellow man in the celebration of Thanksgiving. You know what happened? My Turkey exploded and I lost Munich

A Charlie Brown Thanksgiving: Once more the lens of history focus on what appears to be the demise of Germany and the rise of Italy, a rare commodity on the Diplomacy scene. JUNTA

Costaguane: The Air Force, in a surprise move, bombed the Presidential Palace. Official sources say damage was heavy, but no military casualties resulted. The Chief of Protocol was rushed to the hospital, and is reported in serious and unstable condition. This opening move of a coup is the first attempt to unseat the Phrogus regime.

To all Ministers: Your President is betraying you! Of course he'll retire in 4 years, by then he'll have enough to win! Don't forget the money he got from assassinating the previous President. And that included all the money from the budget that wasn't passed because of the last coup attempt. If this budget isn't distributed he'll have even more. Join in overthrowing the usurper before it's too late.

(Gee, I didn't know we could have press! I thought you wrote it all, Jim!)

Declaring himself the "spiritual heir" of the Progu regime, the head of the Olsen family today "threw his sombrero into the ring" in the upcoming race for President. Promising "unparalleled profit and corruption" for all concerned, Olsen declared he really didn't care much about crusading newspaper editors, "Unless they're crusading for ME!"

By the next deadline, I want everyone's moves for ALL THREE of the first COUP PHASES. The remainder of the coup will be reported in two following deadlines which will combine Coup Phase 4 and 5; and 6 and 7. You may make your moves conditional upon moves in a previous Phase.

SMOKEY THE BEAR SUTRA

Once in the Jurassic, about 160 million years ago, the Great Sun Buddha in this corner of the Infinite Void gave a great Discourse to all the assembled elements and energies: to the standing beings, the walking beings, the flying beings, and the sitting beings—even grasses, to the number of thirteen billion, each one born from a seed, were assembled there: a Discourse concerning Enlightenment on the planet Earth.

"In some future time, there will be a continent called America. It will have great centers of power called such as Pyramid Lake, Walden Pond, Mt. Rainier, Big Sur, Everglades, and so forth; and powerful rivers and channels such as Columbia River, Mississippi River and Grand Canyon. The human race in that era will get into trouble all over its head, and practically wreck everything in spite of its own strong intelligent Buddha-nature."

"The twisting strata of the great mountains and the pulsings of great volcanoes are my tears burning deep in the earth. My endless compassion is silent and beset and granite, to be mountains, to bring down the rain. In that future American Era I shall enter a new form: to cure the world of loveless knowledge that seeks with blind hunger; and rainforest rage eating food that will not fill it."

And he showed himself in his true form of

SMOKEY THE BEAR

A handsome smoky-colored brown bear standing on his hind legs, showing that he is aroused and watchful.

Bearing in his right paw the Shovel that digs to the truth beneath appearances; cuts the roots of useless attachments, and flings damp sand on the fire of greed and war.

His left paw in the Mudra of Comradely Display—indicating that all creatures have the full right to live to their limits and that deer, rabbits, chipmunks, snakes, dandelions, and fleas all grow in the realm of the Dharma;

Wearing the broad-brimmed hat of the West, symbolic of the forces that guard the Wilderness, which is the Natural State of the Dharma and the True Path of man on earth; all true paths lead through mountains—

Wearing the blue work overalls symbolic of slaves and laborers, the countless men oppressed by a civilization that claims to save but only destroys;

With a halo of smoke and flame behind, the forest fire of a Kali-yuga, fire caused by the stupidity of those who think things can be gained and lost whereas in truth all is a mirrored vast and free in the Blue Sky and Green Earth of the Mind;

Sound-buffed to show his kind nature and that the great earth has food enough for everyone who loves her and trusts her;

Sampling unbroken wasteful freeways and needless suburbs; smothering the worms of capitalism and totalitarianism;

Abandoning the Tank; his followers, becoming free of cars, in fact, canned food, universities, and those, master the Three Mysteries of their own Body, Speech and Mind; and finally chop down the rotten trees and prune out the bad limbs of this country America and then burn the leftover wood.

Whether by Calm, Austerity, but Comic, Smokey the Bear will liberate those who would help him; but for those who would hinder or slander him,

HE WILL PUT THEM OUT.

Thus his great Mantra:

Smash smashes vulgarity chanda maharadhas
Bhaktaya hum broke him morn

"I DEDICATE MYSELF TO THE UNIVERSAL DIAMOND IN THIS RAGING FURY DESTROYED"

And he will protect those who love woods and rivers, God and animals, babies and madmen, prisoners and sick people, musicians, playful women, and hopeful children;

And if anyone is threatened by advertising, air pollution, or the nation, they should chant SMOKEY THE BEAR'S WAR SPELL:

DROWN THEIR BUTTS
CRUSH THEIR BUTTS
DROWN THEIR BUTTS
CRUSH THEIR BUTTS

And SMOKEY THE BEAR will surely appear to put the enemy out with his vajra-shovel.

Now those who recite this Sutra and then try to put it in practice will accumulate merit as countless as the sands of Arizona and Nevada.

Will help save the planet Earth from total oil slick.

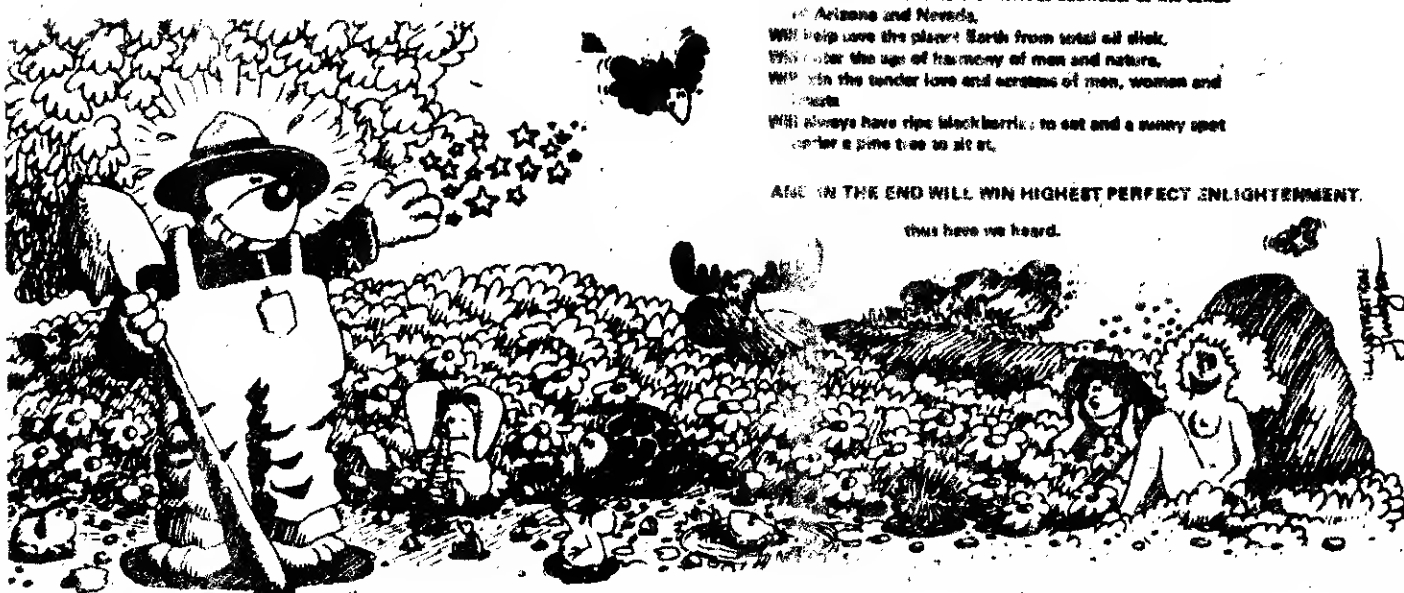

Will enter the age of harmony of man and nature.

Will win the tender love and adoration of men, women and insects.

Will always have ripe blackberries to eat and a sunny spot under a pine tree to sit at.

AND IN THE END WILL WIN HIGHEST PERFECT ENLIGHTENMENT.

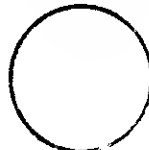

thus have we heard.
